

Page 39 - Activity 52

Go to <http://www.math.com/school/subject1/lessons/S1U1L9GL.html>
read the text and answer:

- a) What are n^2 and 5^2 ?
- b) Click on step 2, "in depth", and read the text.

What are the inverse or opposite operations of subtraction, division and squaring?

Why is 10 the square root of 100?

- c) Click on step 3, "Examples", and read the text. It shows the perfect squares up to number 100 and shows how to calculate squares.

You can choose the explanation in ESObook or the explanation on the math.com web page.
